Abstract

A Career Guidance System where students can see various career opportunities, the system shows various fields available after 12th, for graduation and also fields available after graduation. It also lists various colleges available where students can search colleges by their courses. Next the system allows users to give a test. It is actually a series of tests of various general questions. After test completion a score is calculated for each test. Based on those results the system manipulates and calculates the best career for that user. This result is then emailed to that user. The system also consists of an admin module. The admin can login to the system and enter colleges along with their specifications.

Keywords: Test, Calculation, Result

1. INTRODUCTION

A Career Guidance System where students can see various career opportunities, the system shows various fields available after 12th, for graduation and also fields available after graduation. It also lists various colleges available where students can search colleges by their courses. Next the system allows users to give a test. It is actually a series of tests of various general questions. After test completion a score is calculated for each test. Based on those results the system manipulates and calculates the best career for that user. This result is then emailed to that user. The system also consists of an admin module. The admin can login to the system and enter colleges along with their specifications.

2. PROPOSED SYSTEM

Career Counselling can be of great help to today’s young generation and their parents. Career Counselling can help them find those courses or careers where they can really excel and be extra-ordinary performers. In fact as per a recent survey, almost 80% or more people in workplaces today feel stressed out because they are career misfits. To avoid such a scenario, career counsellors first find out the real Inherent talent of the student using standardized and reliable Aptitude Test. The Aptitude scores reveal the inherent strength profile of the student. Using the same, the Career Counsellors give guidance to the students about their future course of action.
3. MODULES

3.1. User Login Module
